ownership of a four-pound poodle dog, was decided tonight by a jury in Judge Murphy's court. The jury rendered a verdict in favor of Gray, who was the plaintiff in the suit and three weeks ago put up a 3100 bail bond for the release of the dog from the county juli. The case has taken two afternoons in Judge Murphy's court, and the plaintiff had twelve witnesses on the stand, while Cole could command only two. One witness said that while he had never measured the dog's length, he knew the Gray dog was one-eighth of an Inch longer than the dog Cole claimed.

Presbyterians Will **Pension Pastors**

Indorse Project for Collection of Ten-Million-Dollar-Fund for Annuities.

WINONA LAKE, May 24-The general assembly of the Presbyterian church today heard, discussed and approved the recommendations incorporated in the reports of the committees on foreign misports of the committees on foreign missions and Sunday-school work; appointed a committee to investigate and report on the feasibility of the plan of Justice Harlan of the United States Supreme court for the crection of a Central Presbyterian cathedral at the capital, and indorsed a project which proposes the collection of a permanent fund of \$10,000,000, the income from which is to be expended in annuities for aged ministers of the Presbyterian church and their families. The committee on sustemance was commissioned to undertake the work of establishing this fund.

Has a Permanent Dund Has a Permanent Fund.

The committee now has a permanent fund of nearly \$1,659,000 with which to begin operations. The remainder is to be raised among congregational contributions, gifts and an insurance scheme by which a minister may by paying about \$24 a year for thirty years, draw an annuity of \$500. ty of \$20.

Before the thirty years have elapsed, it is estimated that the permanent fund will be sufficient to increase the annuity to \$100. There are \$20 ministers entitled to that in this annuity plan.

Want Control of Young People.

The assembly will undertake to get control of its young people by transferring them from the jurisdiction of the Christian Endeavor union to the direct care of the Presbyterian church. This, it is expected, will be the most important business before the assembly tomorrow.

Cumberland Protestants Also Present a Strong Statement. FRESNO, Cal., May 24.—The protest of

the anti-unionists was filed at the aftercon session of the Cumberland Presby terians' general assembly. It declared the belief of the protestiants in the doctrines of the Cumberland church and that the revision of the Westminster confession was not a revision, and there is no doc-trinal agreement between the two bolles. It affirmed that none of the steps taken has been constitutional; that there is no has been constitutional, that there is no authority for the proposed union, and that the plan proposed means simply the absorption of the Cumberland church into the larger body. It also says that the Presbyterian church has not compiled strictly with the agreement to change its form of government and is not a unit in designs union. lestring |

Drs. Templeton and Black, Judge Beard and Presidents Turner and Taylor were appointed to prepare a protest. The unionists also proposed to read a pasteral letter which they purposed sending out to the churches. A storm of protests arose from the antis, who were not willing even to have the letter read following their conciliatory policy. The unionists withdrew the proposition without reading. With great enthusiasm the assembly received an announcement from President Black that Judge and Mrs. B. D. Rose of Cerryville, Mo., had contributed \$10.000 for Missouri Valley college.

GIVE EXERCISES

L. D. S. Students Have Good Time.

Barratt Hall Is Packed With an Enthusiastic Crowd.

Interesting Programme Is Rendered, "The Last Faculty Meeting" Being Unusually Clever.

Amid the shouts of class students and the applause of outside friends the junior class of the L. D. S. University gave its class day exercises at Barrati hall last evening. The body of the hall was packed, the gallery was well filled, and in all over a thousand people must witnessed the exercises. seniors, who give their programme tonight, were seated in the front of the hall. Attired in their caps and gowns they proved splendld targets for the juniors, who spent the evening princi-pally in poking fun at them.

Opened With College Song. The programme opened with the college song, "Alma Mater." An address of welcome by Class President Richard W. Young, Jr., followed. He indicated the nature of the pragramme and prepared the seniors for the ordeal through which they were to me.

the seniors for the ordeal through which they were to go.

"A Character Study," was the subject of a very amusing paper read by B. F. Cummings. The paper purported to be a letter sent by the graduating committee to Frof. Miller, who at their request describes the heads of the senior boys. The Professor states that it is superfluous to examine the heads of the girls, as he can get nothing out of them, they are governed by their hearts. These he described so as to provoke frequent and prolonged outbursts of laughter among the students.

Lest Faculty Meeting.

Last Faculty Meeting.

"The Last Faculty Meeting," was by far the cleverest part of the programme. Here students impersonating professors met and gove their opinions us to the advisability of graduating certain members of the senior class. They decided so as to keep the good ones in college for another year and graduate the bad ones. Impersonation of Paul.

E. K. Eakle's impersonation of Pvesi-dent Paul was splendid. In make-up he looked the president in every particular, and when it came to quoting scripture and 'as the great poet has said,' he proved himself entirely the equal of the president.

president.

M. Bennion made a distinct hit as Professor Hinckley, while Julian Thomas sent the audience into frequent convulsions of laughter by his matchiess impersonation of Professor Jensen.

Several Songs Sung.

During the evening several well-written songs, full of allusions appreciated only by students of the school, were sung. A song detailing the efforts of the seniors to steal away the eatables at the recent junior banquet was especially well rendered by Edith Grant, Maris Thomas, Stanley Johnson and Julian Thomas. Was Shivery Affair. Was Shivery Affair.

"A Scene at the Entrance of St. Lucifer's Residence" was a rather shivery affair, and when a skeleton went dangling across the stage on a wire, while its dry hones creaked and rattled, there was a death-like silence, broken now and then by sharp laughs that pervaded the audience. It was dark, three seniors, dressed in their caps and gowns, three gally-dressed junior girls, and the devil's impheld the stage. These three seniors alone remained of the "once noble class," and to the juniors they detailed the terrible fate of their former companions.

An Exciting Number.

An Exciting Number.

"Locals and Announcements." by Heber Richards, proved an exciting number Among other things, Mr. Richards pre-tended to expose the programme which the seniors will give this evening. The seniors shouted and yelled as he did so. seniors shouled and yelled as he did so, and their actions indicated that they were safe, but the juniors claim that their as-sertions on the subject were right. The matter remains to be settled this evening when the seniors take their turn at the fun-making.

Verdict in Case of George M. Harper

Jury Finds Death Due to Overdose of Drug, but Without Suicidal

Intent.

After spending the greater portion of yesterday listening to the evidence intro-duced at the inquest into the death of Frank M. Hill, alias George M. Harper alias Frank Rogers, who was found dead in his room at the Fields apartments ten days ago, the Coroner's jury returned a verdict that the young man came to his death from an overdose of morphine or cocaine, self-administered, but without suicidal intent.

Aunt Tells Sensational Story.

The witness who occupied the stand most of the time during the hearing was Mrs. T. M. M. Harper of Richfield, Utah, an aunt of the young man and his fostermother. She told a sensational tale of how the boy's father, who had served a term in the Indiana State prison for wife murder, had aften threatened to kill his son, and expressed the belief that young Hill had been murdered at the instigation of the parent, but her testimony was entirely unsupported by all of the tangible facts and was apparently dieregarded by the jurers, Edward Pickering. R. McDonald and J. W. Reed.

The inquest was held before acting Coroner D. T. Smith and the examination of witnesses was conducted by County Attorney P. P. Christensen.

WORK OF ARMENIANS.

Baku Governor Killed in Revenge for February Outrages.

ST PETERSBURG, May 3, 2 46 a, m.— Though no details of the assassination of Prince Nakachidze, governor of Baku, Prince Nakachidze, governor of Baku. Caucasia, at Baku Wednesday, have been received, the impression here is that the outrage was the work of the Armenian revolutionary committee in revenge for the attitude taken by the Prince during the racial war between Armenians and Tartars in Pebruary last, and is not attributable to the Russian terrorists, even though the latter are at present extremely active in many parts of the Empire. The Armenians laid the responsibility for the deaths of those slain in February at the door of Prince Nakachidze, and only restorday suit was begun against the Prince before the Senate tribunal at St. Petersburg in behalf of the children of Laisleff, a Baku millionaire, whose house was stormed and burned, and himself, his wife and parents killed during the riots. In the suit damages to the amount of \$12,500, were claimed, it being maintained that the Governor, instead of performing his duty by stopping the massacre, actually incited the Tartars to attack the Armenians.

mentans.

Prince Nakachidze was popular among the Russian element in the Caucasus. He was a man of high spirit, and in spite of the hatred of the powerful Armenian revolutionary committee, he disdained revolutionary committee, he disdailed military protection and appeared on the streets unattended. He refused to heed the warnings and entresties of his friends.

TELEPHONE IN LAKE.

You Can Float on Water and Talk to Friends in Town.

One decided improvement is to be made at Saltair pavillon this season, and that is in its telephonic system. A contract has been let to the Rocky Mountain Bell Telephone company authorizing them to install an entirely new system at the beach. Each table in the restaurant will be suppiled with a small telephone, and patrons can send their order to the desk by phone instead of waiting for a waiter. Twelve public stations will be scattered over the pavillon, and an exchange with an operator is also to be installed.

But these are not the only improvements that are to be made in the telephone system. On a pile or floating buoy, 500 feet from the pavillon, a telephone will be set up, enabling bathers to call up friends in the city, or the State, or even in the towns of Montana or Idaho Work upon the new improvements will begin at once, and will be ready for service shortly after the opening of the lake season. SMOOT OPPOSES PUBLIC LIGHTS

Is President of Electric Co.

Question of Municipal Ownership Agitates People of Provo.

Mayors of American Fork and Logan Both Recommend a Municipal

Special to The Tribune PROVO, May 24.-There was a very goo turnout last evening at the mass meeting of the citizens to discuss the advisability of bonding for a municipal electric light plant. Mayor Roylance called the meeting to order and stated the object of the

meeting. Mr. Roylance was elected chairman and David John, Jr., secretary Mayor Boyer of Springville gave the experience of public ownership in Springville. He says the light plant crected and owned by Springville has been a success from the start, and he urged the people of Provo to profit by the experience and own their own lighting plant.

Logan's Mayor Speaks. Mayor Robinson of Logan was present and told of the many disadvantages under which Logan had built her plant, but stated that if she had it to do over again Logan would build an electric light plant, even knowing that competition would be keen, as it has been. Mr. Robinson presented figures to show that municipal ownership was a success in all parts of the world. Out of 150 American cities which own their light system, only one showed a loss in running its plant.

Correction by Wootton.

Representative Wootton, superintendent of the Utah County Electric Light company of American Fork, stated that he wished to correct a statement which had been made by some Provo citizen, to the effect that the American Fork plant would be a losing proposition if it were not for the contract with the numping plant at the head of Jordan river. Mr Wootten says that statement is false; that the company could make several thousand dollars more per annum if it did not have that contract.

Reed Smoot Heard. Reed Smoot Heard.

During the discussion Reed Smoot, the president of the electric company of Provo, was asked if the company would sell its system to Provo City. Mr. Smoot then said that hg did not want the people of Provo to go into this thing without knowing what they were doing. He gave the people to understand that it was a losing proposition, and he was so full of love for the people that he did not want them to buy or try to operate anything that would be a loss to the taxpayers. However, he would sell if the people wanted to buy It did not matter to him how many electric light plants were a success. Provo could not make a success of it.

Whitecotton Against It.

Whitecotton Against It.

N. Whitecotton, the atterney for Mr. Smoot, was there with his argument against public ownership in Provo, and some who were at the meeting say he was very sarcastic and even insulting to those who had previously spoken in favor of Provo building and owning its lighting system. The discussion, both public and private is getting decidedly warm. It is evident that the citizens are in favor of bonding, and those who are righting the proposition are directly or indirectly connected with a certain "ring" and the citizens know who compose that ring.

A Chance for Smoot. The talk on the street today is to the effect that now is the time for Reed Smoot to show how much be loves the people of Provo and his home town. Another meeting will be held in the old tabernacle on Friday evening, May 25. A lively time is anticipated.

HOLIDAYS FOR CLERKS.

American Fork Merchants Consider the Welfare of Employees.

AMERICAN FORK, Utah, May 21 .the merchants of the north end of Utah county held a special session here last evening. The main point considered was the granting to the clerks of a half boll-day each week during the months of June, July and August. After some argu-ment the measure was adopted and Thurs-day afternoons were set apart during the summer months as a holiday for the clerks, to commence a week from tomor-row.

clerks, to commence a week from tomor-row.

It was proposed that a permanent or-ganization be formed and that each busi-ness house be expected to pay an Initia-tion fee of \$1 and a membership fee of 25 cents for each month. No definite action was taken in regard to this matter, but another meeting will be called in the near future to effect a permanent organiza-tion.

The manner in which the merchants aim to conduct their business is on metropolitan lines. The hours have, by mutonian lines. The hours have, by mutoniagreement, been well regulated during the six months of the year commencing with January I, the hours for the clerks being from 8 until 6, and during the balance of the year from 7.30 until 6.30, which, with the half day off each week during the summer months gives the clerks of this end of Utah county a very pleasant life. During last Saturday evening, while a party was in progress at the home of ex-Mayer Joseph I, Jackson, a freezer of ice-cream was stolen from the back part of the house. These thefts have become so very frequent of late that the officers were determined to locate and punish the culprits. After considerable sleuthing, saspiclon fell on two well-known young men of this place, Earl Varney and Ralph Bassett, but no direct evidence could be secured. However, by taking Bassett through a sweating process and by promise of deferred punishment, he confessed to the crime, implicating Varney. When the matter was presented to Judge Kelley, he gave Varney three and one-half days in the city bastile, and Bassett was freed after a severe lecturing by the court.
